

6<sup>th</sup> November 2020

Dear Parent/Carer

Prior to half term I wrote to you regarding the process of applying to College VI and to give information about our subjects through our College VI handbook.

We have now produced the College VI promotional video to showcase the many benefits of studying in College VI. This includes experiences of our current students as well our fantastic facilities including our newly refurbished classrooms and common room. I hope it provides a flavour of what life in College VI is like for our students. To view the video please click [here](#).

In my previous letter, I also mentioned that we would be inviting students for a subject information afternoon in the College VI building. Unfortunately, due to new restrictions surrounding the pandemic this would no longer be appropriate so we will need to cancel this event. We will however look to provide information on new subjects in a different way, in the near future.

Over the next 2-3 weeks, myself and Mr Weeks, Deputy Head of College VI, will be visiting tutor groups in order to meet Year 11 students in person, discuss College VI, their options for next year and answer any questions they may have. In addition, we will be inviting over small groups at a time to College VI, to show them around our newly refurbished building and facilities.

We will be extending the deadline for students to make applications to 11<sup>th</sup> December 2020. To access the handbook and make an application, please follow this [link](#) to our website. If you wish to apply for our outstanding Sports Academy Programmes, there will be an option to indicate this on the form. More information on these programmes can be found [here](#).

I am looking forward to seeing the students over the coming weeks and showing them around the College VI building. I hope you enjoy the promotional video; if you have any questions, please do get in touch.

Yours faithfully

Mr M P Smith  
Head of College VI
