Dear Parent/Carer

## Site Closure – Move to Remote Learning

As you will know, we have experienced some unexpected difficulties with electrics on site this week, leading to an early closure on Monday and some further disruption in some areas for short periods yesterday and today. These issues are exacerbating the heating issues which we were already in the process of resolving. In order to fully investigate and resolve these issues as soon as possible, our contractors will need to shut down power at various points during the day. We have therefore taken the decision to close the site for the remainder of this week and move to remote learning for all students.

All students should complete independent learning tomorrow morning and then from 10.40am (period three), follow their usual timetabled lessons on Google Classroom. Live lessons will be delivered for 20-30 minutes with some follow-up independent work for students to complete. If a teacher is unwell and unable to deliver a live lesson, work will be uploaded on Google Classroom instead. Therefore, if a teacher is not present for a live lesson within the first five minutes, students should look for work set there.

Our Year 11 mock results assembly is postponed and we will therefore share the mock exam results with students next week.

Whilst these steps are regrettable, I hope that they will allow us to resume normal operation as soon as possible. I will send another update before Monday to confirm the arrangements for next week.

I apologise for any inconvenience caused and I am grateful for your support and understanding.

Yours sincerely,

Dr P Bhatt  
Principal
